

Query Results:

1. How many entries in your database are from applicants who applied for Fall 2026?

Fall 2026 applicant count: 29578

```
>>> SELECT COUNT(term) FROM applicants WHERE term = 'Fall 2026'
```

This query pulls from the database applicants and counts only the entries where the term is Fall 2026

2. Among entries that provide a nationality classification, what percentage are international students?

Percent International: 46.34%

```
>>> SELECT ROUND(
    100.0 * COUNT(*) FILTER (
        WHERE LOWER(TRIM(us_or_international)) = 'international'
    ) / NULLIF(COUNT(*), 0),
    2
)
FROM applicants
WHERE us_or_international IS NOT NULL
```

This query pulls from the database applicants and counts only the entries where us_or_international is “international”. It also counts all the entries where us_or_international is “other” or “American” (i.e. Not Null). These two value are used to find the percentage.

3. What are the average GPA, GRE Quantitative, GRE Verbal, and GRE Analytical Writing scores of applicants who provide each metric?

Average GPA: 3.85

```
>>> SELECT AVG(gpa) FROM applicants WHERE gpa IS NOT NULL
```

Average GRE Quantitative: 260.50

```
>>> SELECT AVG(gre) FROM applicants WHERE gre IS NOT NULL
```

Average GRE Verbal: 161.53

```
>>> SELECT AVG(gre_v) FROM applicants WHERE gre_v IS NOT NULL
```

Average GRE Analytical Writing: 8.34

```
>>> SELECT AVG(gre_aw) FROM applicants WHERE gre_aw IS NOT NULL
```

All of these queries pull from the database applicants and calculate the avg score of “score”, it ignores any null values in the count

4. What is the average GPA of American applicants who applied for Fall 2026?

Average GPA of American Fall 2026 applicants: 3.79

```
>>> SELECT AVG(gpa)
      FROM applicants
      WHERE LOWER(TRIM(us_or_international)) = 'american'
      AND term = 'Fall 2026'
      AND gpa IS NOT NULL
```

This query pulls from the applicants database filters for American and Fall 2026, it then find the avg of the gpa

5. What percentage of Fall 2025 entries are acceptances?

Fall 2025 acceptance percentage: 47.92%

```
>>> SELECT ROUND(
      100.0 * COUNT(*) FILTER (WHERE LOWER(TRIM(status)) =
      'accepted') / NULLIF(COUNT(*), 0), 2)
      FROM applicants
      WHERE term = 'Fall 2025'
```

This query pulls from the database applicants and filters for Fall 2025 and then it counts all the applicants and all the applicants with accepted status and calculates the percentage from those two number.

6. What is the average GPA of accepted applicants who applied for Fall 2026?

Average GPA of accepted Fall 2026 applicants: 3.89

```
>>> SELECT AVG(gpa)
      FROM applicants
      WHERE LOWER(TRIM(status)) = 'accepted'
      AND term = 'Fall 2026'
      AND gpa IS NOT NULL
```

This query pulls from the applicants database, filters for accepted and fall 2026 and then finds the average GPA, ignoring any Null values.

7. How many entries are from applicants who applied to Johns Hopkins University for a master's degree in Computer Science?

Johns Hopkins Comp Sci Applicants: 8

```
>>> SELECT COUNT(*)
      FROM applicants
     WHERE (
           LOWER(program) LIKE '%johns hopkins university%'
         OR LOWER(program) LIKE '%jhu%'
         OR LOWER(program) LIKE '%johns hopkins%'
        )
      AND LOWER(program) LIKE '%computer science%'
      AND LOWER(TRIM(degree)) IN ('masters', 'master', 'master"s')
```

This query pulls from the applicants database, it looks in the program entry for strings that match each entry of university and computer science and then filters for master's degrees in the same way

8. How many Fall 2026 entries are acceptances from applicants applying for a PhD in Computer Science at one of the following universities?

Original Field Count: 28

```
>>> SELECT COUNT(*)
      FROM applicants
     WHERE term = 'Fall 2026'
      AND LOWER(TRIM(status)) = 'accepted'
      AND LOWER(TRIM(degree)) = 'phd'
      AND LOWER(program) LIKE '%computer science%'
      AND (
           LOWER(program) LIKE '%georgetown university%'

```

```
OR LOWER(program) LIKE '%massachusetts institute of
technology%'
```

```
OR LOWER(program) LIKE '%mit%'
```

```
OR LOWER(program) LIKE '%stanford university%'
```

```
OR LOWER(program) LIKE '%carnegie mellon university%'
```

```
)
```

This query pulls from the applicant database. It filters for fall 2026, accepted status and phd degree. Then it uses the LIKE command to search in the program category for versions of the specified universities and computer science major.

9. How many Fall 2026 entries are acceptances from applicants applying for a PhD in Computer Science at one of the following universities?

llm Field Count: 0

```
>>> SELECT COUNT(*)
```

```
FROM applicants
```

```
WHERE term = 'Fall 2026'
```

```
AND LOWER(TRIM(status)) = 'accepted'
```

```
AND LOWER(TRIM(degree)) = 'phd'
```

```
AND LOWER(llm_generated_program) LIKE '%computer science%'
```

```
AND (
```

```
LOWER(llm_generated_university) LIKE '%georgetown university%'
```

```
OR LOWER(llm_generated_university) LIKE '%massachusetts
institute of technology%'
```

```
OR LOWER(llm_generated_university) LIKE '%mit%'
```

```
OR LOWER(llm_generated_university) LIKE '%stanford university%'
```

```
OR LOWER(llm_generated_university) LIKE '%carnegie mellon
university%'
```

```
)
```

This query works almost the same as question 8 except it uses the llm_generated_university column rather than in program.

Difference between question the original values and the IIm generated values: +28

10. What percentage of students reported a GRE verbal score?

Percent reporting GRE verbal: 6.69%

```
>>> SELECT ROUND(  
        100.0 * COUNT(gre_v) / NULLIF(COUNT(*), 0), 2  
    )  
    FROM applicants
```

This query pulls from the applicants database, counts the number of students with a gre_v score, counts all, and then uses these two values to calculate a percentage

11. Number of applicants who applied to Temple University

Temple University Applicant Count: 68

```
>>> SELECT COUNT(program)  
    FROM applicants  
    WHERE lower(program) like '%temple university%
```

This query pulls from the applicant database, counts the number of programs that match or include something like Temple University.
